

Fujie Tang (汤富杰), Ph.D.

CONTACT INFORMATION	Room B308, Zengchengkui Building, Siming Campus, Xiamen University, Siming District, Xiamen, Fujian 361005, China Research Group: https://fujiepk.github.io University Profile: https://chem.xmu.edu.cn/info/1421/126815.htm	E-mail: tangfujie@xmu.edu.cn ORCID: 0000-0001-9761-5359
ACADEMIC POSITIONS	Professor, PI College of Chemistry and Chemical Engineering, Institute of Artificial Intelligence, Xiamen University, Xiamen, Fujian, China Research Professor Laboratory of AI for Electrochemistry (AI4EC Lab), Tan Kah Kee Innovation Laboratory (嘉庚创新实验室, IKEEM), Xiamen, Fujian, China Professor Pen-Tung Sah Institute of Micro-Nano Science and Technology, Institute of Artificial Intelligence, Xiamen University, Xiamen, Fujian, China Associate Professor Pen-Tung Sah Institute of Micro-Nano Science and Technology, Institute of Artificial Intelligence, Xiamen University, Xiamen, Fujian, China Associate Research Professor Laboratory of AI for Electrochemistry (AI4EC Lab) Tan Kah Kee Innovation Laboratory (嘉庚创新实验室, IKEEM), Xiamen, Fujian, China	2026.07-Present 2025.12-Present 2025.12-2026.07 2024.01-2025.12 2024.01-2025.12
POSTDOCTORAL AND VISITING EXPERIENCE	CSI Postdoctoral Scholar Computational Chemical Science Center, Princeton University, Princeton, NJ, USA Supervisor: Prof. Xifan Wu & Prof. Roberto Car Visiting Scholar Department of Physics, University of California at Berkeley, California, CA, USA Supervisor: Prof. Steven G. Louie Postdoctoral Fellow	2019.10-2023.10 2019.06-2019.07 2018.10-2019.09

Department of Physics,
Temple University, Philadelphia, PA, USA
Supervisor: Prof. Xifan Wu

Visiting Ph.D. Student

2019.06-2019.07

Department of Molecular Spectroscopy,
Max Planck Institute for Polymer Research, Mainz, Germany
Supervisor: Dr. Yuki Nagata & Prof. Mischa Bonn

EDUCATION

Peking University, Beijing, China

Ph.D., Condensed Matter Physics

2013.09-2018.06

- Thesis Topic: *Structures and Dynamics of Interfacial Water*
- Supervisor: Prof. Limei Xu

Peking University, Beijing, China

B.S., Major in Physics

2009.09-2013.07

- Advisor: Prof. Tongjun Yu

RESEARCH
INTERESTS

1. Computational Spectroscopy: Method Development and Mechanistic Interpretation

- Vibrational spectroscopy: Development of computational methods for vibrational spectroscopy of complex interfaces and solution systems, with a particular focus on extracting molecular-level structural and interaction information from infrared, Raman, and vibrational sum-frequency generation spectra
- Excited-state spectroscopy: Development of theoretical spectroscopic methods for electronic and core-level excitations, with a particular focus on X-ray absorption and ultraviolet/visible absorption spectroscopy, to elucidate electronic structure, excitonic effects, and charge-transfer mechanisms

2. Theoretical and Computational Chemistry: Method Development and Applications to Complex Chemical Systems

- Electronic-structure methods: Development of ground-state electronic-structure methods integrating concepts from density functional theory and quantum chemistry, together with excited-state approaches such as GW-BSE, to investigate chemical bonding, electronic structure, interfacial charge transfer, and excitonic effects
- Atomic and molecular simulations: Development and application of first-principles molecular dynamics and accelerated simulation methods to investigate structural evolution, molecular interactions, dynamical processes, and nuclear quantum effects in complex chemical environments

3. **Structure, Dynamics, and Spectroscopy of Complex Chemical Systems**
 - Investigation of the structure and dynamics of complex solid–liquid interfaces, electrochemical interfaces, confined water systems, and low-dimensional material interfaces, with an emphasis on interfacial hydrogen-bond networks, ion solvation, charge transfer, and their spectroscopic signatures
 - Investigation of the structure, dynamics, phase behavior, and spectroscopic properties of water and aqueous systems under extreme conditions and nanoscale confinement
4. **Artificial Intelligence for Theoretical Chemistry, Computational Spectroscopy, and Electrochemistry**
 - Development of physics-informed and interpretable machine-learning methods to accelerate molecular simulations, spectroscopic calculations, and structural characterization of complex chemical systems
 - Construction of “structure–dynamics–spectroscopy” relationship models for complex chemical systems to enable experimental spectral interpretation, mechanistic understanding, and AI-assisted spectroscopic characterization

FUNDING	• Excellent Young Scientists Fund (Overseas)	PI
	Amount: 1000,000 RMB	
	National Natural Science Foundation of China	2026.01–2028.12
	• General Program	PI
	Amount: 500,000 RMB	
	National Natural Science Foundation of China	2026.01–2029.12
	• National Key R&D Program —Catalytic Science	co-PI
	Amount: 500,000 RMB	
	Ministry of Science and Technology of China	2025.12–2030.11
	• National Key R&D Program —Nano Frontiers	co-PI
	Amount: 1000,000 RMB	
	Ministry of Science and Technology of China	2024.12–2029.11
	• Natural Science Foundation Youth Project	PI
	Amount: 50,000 RMB	
	Xiamen Municipal	2024.07–2027.06
AWARDS AND HONORS	• National High-level Talent Program (Youth Project)	2025.11
	• High-level Overseas Returnee of Xiamen	2025.07
	• The “Top Talent Recruitment Program” of Fujian	2024.12

- Springer Thesis Award of 2018, Springer Nature Singapore 2018.08
- The Excellent Doctoral Dissertation of Peking University 2018.07
- Distinguished Graduate of Peking University 2018.07

PEER REVIEWED **Highlights:** 33 published papers, first/co-first/corresponding/co-corresponding author
JOURNALS papers = 21, cited 2130 times, h-index = 18. (Updated: Sept.-06-2026)

INVITED TALKS & SEMINARS	1. Fujie Tang. Invited Seminar Talk. China Spallation Neutron Source, CSNS, Dongguan, Guangdong, China	2025.12	
	2. Fujie Tang. Invited Talk. The 1 st National Conference on Surface and Interface Science, Chengdu, Sichuan, China	2025.05	
	3. Fujie Tang. Invited Talk. The 4 th National Conference of Ultrafast Vibrational Spectroscopy, Xi'an, Shaanxi, China	2025.04	
	4. Fujie Tang. Invited Talk. The 15 th National Conference of Theoretical and Computational Chemistry, Changchun, Jilin, China	2024.08	
	5. Fujie Tang. Invited Talk. The 13 th National Conference on Soft Matter and Biological Physics, Xi'an, Shaanxi, China	2024.04	
	6. Fujie Tang. Invited Talk. American Physical Society, March Meeting, Minneapolis, MN, USA	2024.03	
	7. Fujie Tang. Invited Seminar Talk (virtual). Department of Physics, University of California at Berkeley, Berkeley, CA, USA	2021.07	
	8. Fujie Tang. Invited Seminar Talk. Department of Mechanical Engineering, Stanford University, Stanford, CA, USA	2019.07	
	9. Fujie Tang. Invited Seminar Talk. Department of Physics, University of California at Berkeley, Berkeley, CA, USA	2019.06	
	10. Fujie Tang. Invited Talk. The 11 th National Soft Matter Physics Conference, Xiamen University, Xiamen, China	2017.03	
ADVISING & MENTORING	Current Ph.D. Advisees		
	1. Ms. Qi You, coadvised with Prof. Jun Cheng	2023	
	2. Mr. Boying Huang	2024	
	3. Mr. Jiezhen Xia	2024	
	4. Mr. Xianglong Du, coadvised with Prof. Jun Cheng	2025	
	5. Mr. Fanjie Xu, coadvised with Prof. Jun Cheng	2025	
	6. Ms. Wanlin Xu	2025	
	Current Graduate Advisees		
	1. Mr. Pengwei Xu, coadvised with Prof. Jun Cheng	2023	
	2. Mr. Suyang Zhong	2024	
	3. Ms. Lu Cao	2025	
	4. Mr. Yuyang Zhu	2025	
	JOURNAL REVIEWER	Physical Review Letters, Physical Review Series, Journal of Physical Chemistry A/B/C/Letters, Chemical Physics Letters, Journal of Computational and Theoretical Chemistry, International Journal of Quantum Chemistry, Journal of Colloid and Interface Science
